

RESIDENTIAL

Gargoyle for roadsides (Profile A)

DESCRIPTION

The «A» type gargoyle is used to evacuate rainwater under the roadsides. The rounded shape of the «A» type shoe makes it possible to orientate to facilitate the connection with the head of the gargoyle. Embossed markings on the underside of the parts form impressions that ensure that the seal is secure. The connection between the head and the shoe is made by a rectangular galvanized steel tube.

RECOMMENDED USE

- Rainwater
- Gravitary

STANDARDS & APPROVALS

- Industry Product Standards:
 - EN 12056-3

MATERIAL

- Grey cast iron

ENVIRONMENTAL DATA

- Recycling Information: Cast iron is 100% recyclable through the existing recycling industrial network.
Data source: Declaration of recycled content.
